

9 January 2017

Attn: Principals of all primary schools

Dear Sir/Madam,

**Registration for Raffles Institution's Primary Mathematics World Contest (RIPMWC) 2017**

1. Following our success in hosting the previous Primary Mathematics World Contest, we are very pleased to inform you that Raffles Institution (RI) will be organising the above contest this year.
2. There will be two categories – Junior and Open for the Primary 1-5 and Primary 6 pupils respectively. For each category, there will be two rounds in the contest. Round one of the contest will be conducted online with the help of our IT and pedagogy partner, HeyMath!. During this round, schools may send in as many participants as they wish. Selected top pupils from each category will then be invited for the second round, which will be a written contest held in RI.
3. In our continual school effort to groom local talent, the top pupils from each category will be invited for training in RI.
4. To help your pupils prepare for the contest, we are pleased to offer the Preparatory Course for your pupils who will be participating in 2017.
5. The preparatory course will allow your pupils to attempt all questions from our previous contests. Fully-worked out solutions are included as well.
6. More details such as changes in 2017, rules and regulations and the steps for registration can be found on the following website:

<http://contests.heymath.com/admin/RI17>

7. The activation key for school registration is **GEOMETRY**. Please note that this key is for the school use only and should not be shared with parents and pupils.
8. We thank you for your continued support and look forward to your participation in the contest.

With warmest wishes

Chan Poh Meng  
Principal
